SUMMARY

Dedicated and quality-focused software engineer with over three years of hands-on development experience. Committed to continual learning, I eagerly embrace new challenges to enhance my skill set and consistently deliver impactful solutions that drive business success and elevate user satisfaction.

SKILLS

- Typescript
- React
- Node.js
- MUI
- Figma
- Git
- CI/CD
- GitHub Actions
- Google Cloud Platform
- Google Tag Manager
- Looker
- Accessibility

EXPERIENCE

4/2023 - 6/2024
Full-Time

Software Engineer II   NCR Voyix Corporation

- Orchestrated the innovation and refinement of existing static analysis composite GitHub Actions tailored for the Voyix Doc Site, ensuring streamlined workflows and enhanced code quality
- Led the architectural design and implementation efforts for global experience analytics initiatives, driving forward the development and deployment of scalable solutions
- Elevated user satisfaction by spearheading the development of a comprehensive redesign of the Voyix Doc Site, focusing on intuitive navigation and seamless user interaction
- Directed the development efforts in restructuring and expanding content within the Commerce Design Docs, ensuring comprehensive documentation for product teams

`Next.js / GitHub Actions / Google Cloud Platform / Looker`

7/2021 - 4/2023
Full-Time

UI Engineer I   NCR Corporation

- Architected the design and development of the Store Health project for Starbucks UK, aligning technical solutions with business objectives and user needs
- Contributed to the integration of the NCR Design System with product teams, resolving issues and enriching functionality by crafting custom React components
- Mitigated legal risks by implementing an automated framework to scan NCR products for accessibility scores, facilitating compliance and enhancing inclusivity
- Implemented Google Tag Manager and FullStory across digital connected services products, providing valuable analytics insights and facilitating efficient troubleshooting for future enhancements

`React / MUI / Design Systems / Accessibility / Google Tag Manager`

7/2020 - 9/2020
Internship

Software Engineer   NCR Corporation

`Python / REST API / Google Cloud Platform`

EDUCATION

5/2021   **Masters of Science: Web and Mobile Information Systems**   Robert Morris University | GPA: 3.78

5/2021   **Bachelor of Science: Software Engineering**   Robert Morris University | GPA: 3.24
Minor: Data Analytics

LEADERSHIP AND ATHLETICS

8/2016 - 5/2021   **D1 Athelete (Lacrosse)**   Robert Morris University

- Dedicated 40+ hours a week practicing lacrosse, lifting, analyzing game and practice film, and community service, while balancing a full academic course load
- Developed teamwork and leadership skills while participating in team building activities
Achieved back-to-back conference championships (NEC) and made NCAA appearances in the 2018 & 2019 seasons
